

L-PLJ

機剪毛巾機

SHEARING TERRY CIRCULAR KNITTING MACHINE

- 1、三角采用特殊耐磨合金鋼材，用加工中心加工而成，并進行精密研究處理，使針軌光滑，當機器高速運轉時，織針運動順暢，可延長其使用壽命。
- 2、使用特殊除塵設計，減少清車率，提高刀片壽命。
- 3、布面具有反包的效果，但一次剪毛損耗比傳統反包機低4-5個百分點，大大節約了生產成本。

1. Using special anti-friction alloy steel to produce cams, manufactured by CNC center. High precision grinding, more smooth needle tracks. When machine runs at high speed, needles run smoothly which extends needle life.
2. Special dusting design, it reduces machine-clean times and extends knife life.
3. With reverse fabric effect, it saves 4% to 5% material consumption, which decreases cost and increase profit.

規格/ Specification:

型號 Model	針筒直徑 Cylinder Diameter	針距 Gauge	口數 Feeders
L-PLJ	30 "	20G	1.6F/INCH
