LKM Precision Machinery

LKM - HIGH SPEED KNITTING MACHINES

- Needle / Singer : Groz Beckert, Kern Liebers (Germany)
- Cylinder / Cams : Special Alloy Steel (Japan)
- Oiler : Auto Oiler Memminger pulsonic 5.2
- Storage : Magnetic Positive Yarn Storage Sun Brand
- Inverter : Delta (Taiwan)
- Cleaning System : Middle & Top

HIGHLIGHTS

- High Speed Machine
- Bed Adjustment
- Power Efficiency Very Low
- Cylinder with special dust hole to weave spun
- Fabric detector

This model uses 4-track cam and is the most important machine to produce various jersey knit. It has the feature of short separation and easy adjustment.

Cylinders are made of special alloy steel through precise processing and particular thermal treatment, which are durable in use. If using the cylinder with special dust hole to weave spun, it is effective in eliminating from heaped cotton flocks in the sink through and reduces clean time.

No.	MODEL	DESCRIPTION
1	L-ST4	Single Jersey Knitting Machine (2F/inch)
2	L-SM4T	Single Jersey Knitting Machine (3F/inch)
3	L-SSP	Single Jersey Knitting Machine (3.2F/inch)
4	L-BS4T	Single Jersey Knitting Machine (4F/inch)
5	L-SF4	Single Jersey Knitting Machine (5F/inch)
6	L-SI2	Single Jersey Knitting Machine (6F/inch)
7	L-STI	Single Jersey Knitting Machine
